Web Setup Help

This utility provides access to CallPilot Help independantly of CallPilot Software. Please click on your choice to open Help. These documents, as well as other Customer Documentation, may be updated periodically as needed. It is recommended that the Partner Information Center and Helmsman Express websites be frequently referenced for the latest information.

To view Help files, this utility requires an internet browser (Internet Explorer - Microsoft Corporation or Netscape - Netscape Communications Corporation) to be installed on the client server. Additionally, some Help files utilize Microsoft WinHelp.
